

Legal Highlights of IP Agreement β v.3393.58.A

Three Step Transparency | IP β v.3393.58.A (the: "IP") introduces as an agreement, a three Step Integrated Modular Framework: (A) Technical (B) End Users and (C) AML, providing a "manual" look & feel.

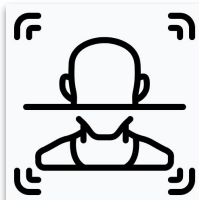

Integrated Control | Tailored 'legaltech' solutions, all optional, help to guard against fraud. Technical solutions are supported by legal solutions. Both of those help to stimulate acceptable End User Behavior, at the same time enhancing End User Experience.

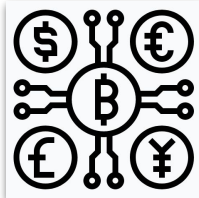

Process Automation | Scripting of procedural responses shall assist in creating a stabile legal framework. End Users are granted rights, that shall however expire if preformatted conditions are met (statutory limitations, End User Behavior Policies)

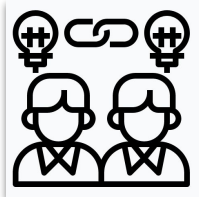

Enhanced Reporting | Introduction of several mandatory Quarterly Integrated Reporting: (1) Data Protection Reporting; (2) Responsible Gaming Reporting; (3) Money Laundering Reporting. Easy and Complete.

KYC Enhancements | New identification procedures will enhance knowledge of the End User on every level, providing CSP's with the tools to properly manage the high-risk B2B environment.

Payment Processing Enhancements | The enhanced IP helps to upgrade the experience with payment processors. Introducing possibilities for safe and responsible neo-banking: gaminglegal.com/ai.

Courtesy Arbitrary Assistance | Users of the IP will receive the benefit of Courtesy Arbitrary Assistance. Receive an expert report for free on every properly reported End User dispute, using their experiences to improve products. No strings attached. No drawbacks. Prevent Extortion Rings.
